

Safety incidents increase 30% at night.*

Lower your risk by improving your lighting.

Better lighting can improve employee safety, reduce the risk of injury, increase morale and lower incidents of theft.

OSHA standard 1926.56 requires 3-5 foot candles on loading platforms, construction areas, refueling areas, warehouses and more. OptimalLED can help you achieve these standards or better.

OptimalLED provides in-stock, high quality LED products at factory direct pricing to suit all of your lighting needs.

TRI-PROOFS ~ CANOPY LIGHTS ~ LINEAR HIGH BAYS ~ FLUORESCENTS ~ POLE LIGHTING ~ WALL PACKS
